Instructors: Many schools and courses require a final exam in oral skills courses or to release students from an English program. A final exit interview is an accurate, appropriate measure of student ability to speak English.

Please take notes while interviewing each student for their “exit” interview. Choose 6-10 questions in a formal 10-12 minute interview. Students should be able to appropriately respond and give reasons to support their opinions. Use the form below to make your comments and rate students on a scale of 1-7.

Videotaping the interviews is recommended, but not required.
